My rating dropped from 4.91 to 4.90. See the picture attached Last Monday I picked up a Poo rider. The trip was very short, 870 metres. He gave me 1 star and with Navigation.

Radio navigation - Wikipedia Radio navigation or radionavigation is the application of radio frequencies to determine a position of an object on the Earth. Like radiolocation, it is a type of radiodetermination. The basic principles are measurements from/to electric beacons, especially directions, e.g. by bearing, radio phases or interferometry.
